Key for Deduction/Elimination

- One error is equal to 3-minute addition to the participant's time.
- Deduction applies for any components, parts, tools, or screws that fall from the table (one error per component).
- Contestants who damaged or destroyed major PC components (such as the motherboard, processor, memory, and power supply) will be automatically eliminated from the contest.
- If a participant cannot make the computer run immediately after assembly, they are allowed to conduct troubleshooting, but must not exceed the 40-minute time limit.

In case of a tie, the participant with the fewest irregularities will be declared the winner. The decision of the Head and Judge is final.
